

PIRATE TREASURES

MESSAGE FROM THE PRINCIPAL

Dear parents and families,

I would like to thank all of you who are participating in our chocolate fundraiser. You are doing a wonderful job! We greatly appreciate your support. With the last nine weeks just around the corner, I want to remind you that state tests will begin on April 29th. Therefore, every school day is important as we prepare for these tests. As long as your child is healthy, he or she needs to be at school.

We look forward to a wonderful remainder of the school year! I hope that you have a safe and enjoyable spring break!

Kim Scutch, Principal

**PEARL UPPER
ELEMENTARY**

ART

Ms. Creighton

We will begin the month of March learning about Pablo Picasso and the Cubism style. Students will create their own cubism faces with oil pastels and paint.

REMINDER: Please download the BoxTops app on your phone and scan your grocery receipts. This gives money to our school to help buy fun art supplies for our students! Also, remember to send pencil store money with your student on Art day.

LIBRARY

Mrs. Harrell

Congratulations! The following students have exceeded 200 AR points. They have received a Library VIP pass to use the remainder of the school year and have qualified for the AR field trip in April. The deadline to qualify for the field trip by earning 200 AR Points is Friday, April 4th.

Ja'Kyla C. Allyson G. Bailey M.

3rd 9 weeks AR Goals are due Friday, March 7th. Please encourage your student to meet their AR Goal!

PHYSICAL EDUCATION

Mrs. Edmondson

We will begin the month of March by playing dodgeball. Later this month, we will reinforce basketball and soccer fundamentals with some fun games and drills.

MUSIC

Mrs. Berger

After Spring Break, fifth graders will begin a 4-week unit on beginning guitar. We will learn simplified chords and songs on the guitar. Surprisingly, the finger positions of chords on the ukulele can easily be transferred to the guitar. I hope that students will enjoy this introduction to the guitar!

Fourth graders will continue to practice ukulele, and should know C, Am, F, G7, and G chords by the end of the month. These are some of the most common chords and can be found in numerous popular songs. More information can be found on my Google classroom using the code: y35mlk2.

COMPUTER

Ms. Gray

During the month of March, the 4th grade students will continue to build on their knowledge of using conditional (if/else) statements to declare when a certain command should or should not run. The 5th grade students will continue learning to identify when a function is helpful to simplify a program. All students will then use the concepts to complete a mini-project in which they will also be writing, researching, and applying information related to coding.

Please remember to encourage your child to practice their typing lessons at home and to use proper typing technique while practicing typing!

CONGRATULATIONS

February Teacher
of the Month

A NOTE FROM THE NURSE

Nurse Brandi

SPRING is in the air, and so are allergies!

Common symptoms of allergies include runny nose, nasal congestion, sneezing, and itchy or watery eyes.

Here are a few ideas to help with seasonal allergies:

- Identify your triggers.
- Keep windows and doors shut at home when pollen counts are high.
- Try over-the-counter remedies such as nasal sprays and antihistamines.
- Dust and vacuum frequently.
- Shower and/or bathe daily.

****Health Trivia Question****

Q. What is the smallest bone in the human body?

A. Stapes (found in the ear)
